

Kia ora whānau o Te Kura o Haewai,

We hope this finds you well and you are looking forward to a pleasant weekend ahead. We would love to commend the way students have been following our safety precautions and the wearing of masks has not deterred students from starting another exciting year.

Here at HVS we have been busy preparing for if/when Omicron reaches our community. We are truly hoping there are no cases but we have been proactive in case of a “what if...”

We have been developing contingency plans for if there is a case at school or in your child’s class.

This afternoon, your child has brought home a “hard pack”. In this pack we have provided resources for your child to do their learning at home if needing to self isolate.

This is the starter pack for your child and as the events unfold we will continue to keep you updated on the process.

Ngā manakitanga,

HVS kaiako
